WORK EXPERIENCE

Mamlaka Hub Spoke Limited

Jan 2025 – Dec 2025

Software Engineer

- Designed and deployed agentic AI applications automating payments processing and customer support, reducing response times by 40% within 3 months.
- Led development of GPAY mobile fintech app for Cameroon, streamlining daily financial transactions for thousands of users.
- Built scalable microservices architecture with focus on security; implemented CI/CD pipelines for efficient deployment.

Badili Africa

Feb 2024 – Dec 2024

Software Engineer

- Developed high-quality software architecture using React and TypeScript, improving code maintainability through strict code reviews and testing.
- Collaborated with cross-functional teams in Agile environments; implemented unit tests achieving 85% code coverage.

More Classifieds

Jun 2023 – Dec 2023

Software Engineer

- Developed Android/iOS apps enhancing business-to-vendor interaction; integrated Flutterwave payments, reducing transaction processing time by 50%.
- Deployed apps on Google Play Store and App Store; improved performance via state management and caching optimizations.
- Designed and developed the customer-facing website and internal company dashboards.

Move Fare Technologies

Feb 2021 – Mar 2023

Frontend Engineer

- Spearheaded development of Cashless Matatu Payment app, increasing cashless payments by 30% and contributing to 10% revenue growth.
- Integrated MPESA and Core Banking APIs for user top-up and real-time SACCO settlements.

PROJECTS

Pocket of Paradise

Dec 2025 – Jan 2026

- Completely revamped front-end design using React.js, resulting in significant increase in conversion rates, user engagement, and site performance.
